## **ATCO FRONTEC AWARDED NEW NATO CONTRACT** **Operations Support for Peacekeepers in Northwestern Bosnia**

CALGARY, Alberta -- ATCO Frontec has been awarded a second contract from NATO Maintenance and Supply Agency in Luxembourg to provide the operations and maintenance of communications information systems in Bosnia. The contract expands ATCO Frontec's presence supporting NATO, the European Union military and peacekeeping activities overseas.

ATCO Frontec will support the CRISIS Network of the Multi-National Task Force North West headquartered in Banja Luka, which provides classified and non-classified communication of data between task force command and its multi-national units stationed at four remote locations throughout northwestern Bosnia.

Members of the Task Force are primarily British and Dutch military forces supporting on-going peacekeeping operations as part of NATO Stabilization and European Union Force (EUFOR) efforts.

The one-year contract, with two one-year renewal options, is similar to ATCO Frontec's existing operations and maintenance contract supporting NATO/EUFOR headquarters in Sarajevo and remote locations in the Mostar and Tuzla regions of Bosnia. ATCO Frontec will provide management and technician support and communications and information services including: ADP maintenance, help desk, system administration and mobile repair team services.

"The superior performance of ATCO Frontec has led to this new contract and expands the quality services we offer in support of peacekeeping in Bosnia," said Harry Wilmot, President, ATCO Frontec. "This contract builds on our expertise and demonstrates our ability to support peacekeeping operations."

Since 2000, ATCO Frontec has gained extensive experience and expertise in the Balkans region supporting the Canadian Forces, NATO and EUFOR. Recently, the Company was selected as the prime contractor to provide communications and information services, facilities operation and maintenance, vehicle and equipment maintenance and engineering support services to the Kabul Afghanistan International Airport, as part of NATO's International Assistance Force.

ATCO Frontec provides site support services and facilities management to the defence, peacekeeping, transportation, telecommunications and resource sectors. For further information regarding ATCO Frontec, please visit [www.atcofrontec.com](http://www.atcofrontec.com).

ATCO Frontec is a member of the ATCO Group – a worldwide organization of companies with over 7,000 employees actively engaged in Utilities, Power Generation and Global Enterprises.
